## THE RESIGNATION

Of Lord Rosebery Commented On by the London News.

LONDON, Oct. 9.—The Daily News, commenting on the Earl of Rosebery's withdrawal from the leadership of the liberal party (having written a letter to a political colleague to that effect) says:

"Lord Rosebery has allowed himself to be maneuvered out of the leadership. Before he can be asked to resume the position he must be accorded a vote of confidence by his colleagues."

LORD ROSEBERY.

The step taken by his lordship is a very grave and lamentable one. It is Mr. Gladstone's return to the field that has been the immediate and perhaps the inevitable cause. Mr. Gladstone's enunciated policy in favor of Great Britain's single-handed act in the east conflicts with the principles to which Lord Rosebery has adhered.

## YELLOW METAL.

Imports and Withdrawals of Gold From Treasuries and Sub-Treasuries.

NEW YORK, Oct. 9.—The gain in gold by the United States treasury since the first arrivals August 28 in the present import movement has been \$33,000,000. The withdrawals from the treasury in Washington and from all sub-treasuries in the same time, covering 42 business days, has been \$7,861,000, so that the net gain by the treasury has been about \$25,000,000. The withdrawals for use in the arts have averaged \$25,000 a day or \$1,050,000 altogether. Other withdrawals "in ordinary courses" have averaged \$60,000 a day, making a total of \$2,520,000. Adding to this last named sum the gold withdrawn for use in the arts, the aggregate is \$5,570,000. The chief withdrawals otherwise have been for the San Francisco treasury by Pacific coast banks. A good deal of gold has also been withdrawn from the New York sub-treasury for shipment to Canada. There have recently, however, been some receipts from Canada to offset the earlier shipments to that country.

## HEAVY GALES.

Damage on the Coasts of England and Ireland.

Cambrian Railway for a Distance of a Mile Entirely Washed Away.

The Sea Walls at Swansea and Whitehaven Partially Destroyed—Much Damage to Shipping—Numerous Isolated Cases of Drowning Reported.

LONDON, Oct. 9.—An abnormally high tide greatly damaged the Cambrian railway between Aberswith and Machynemeth and Towyn and Barmouth. For the distance of a mile between the latter place the line was entirely destroyed. It will take fully a week to get the line in running order. The railway was also flooded between Barmouth and Dolgelly and Barmouth and Port Madoc.

The sea wall at Swansea was partially destroyed by the heavy sea pounding against it. A number of small houses at Thenclawd dock were demolished and the furniture in them carried away. The tide rose 21 feet at Aberswith, making a breach in the sea wall. Many cottages at Borth were ruined. A large unknown ship was lost off Skermer island and all on board of her perished.

The River Severn rose seven feet above its normal height at Newham and the lower portion of the town was flooded. Many animals were drowned. The sea wall and the railway at Whitehaven were badly damaged and many houses were badly flooded. The deluge of rain was accompanied by thunder.

Reports from Ireland show that much damage was done along the coast of County Clare. The city was inundated for miles and thousands of tons of hay and great quantities of harvested corn have been washed away.

The gale lasted for 60 hours. It was abating Thursday night. The life boat which left Tenby, Wales, Thursday morning to go to the rescue of the crew of a vessel in distress in Carmarthen bay, returned Thursday evening, having rescued the crews of four coasting vessels.

Reports from other places give graphic details of the rescues made by the lifeboats. It is thought that the total loss of life by drowning will be large. Numerous isolated cases of drowning have been reported.

The White Star line steamer Germania, from New York, arrived at Liverpool Thursday. She reports that her boatswain was lost overboard.

## BALTIMORE WINS.

The Clevelanda Lose the Temple Cup by Losing Four Straight Games.

CLEVELAND, O., Oct. 9.—Baltimore won the Temple cup by winning Thursday's game from the Clevelanda. The game was a fine exhibition for six innings, neither side scoring during that period. Corbett was in the box for the Orioles and was invincible. He struck out eight men and added to the glory of his performance by hitting safely every time he was at bat. Cuppy pitched beautiful ball for six innings, only four hits being made off him up to the seventh. In the seventh a double followed by a long single and three outs resulted in two runs. In the eighth two singles and two doubles scored three runs. Commendation is due the umpires for their work, not a single decision being questioned. Attendance 1,200. Weather very cold and wintry. Score:

## CHICAGO FIRE.

Twenty-Fifth Anniversary of the Greatest Conflagration of Modern Times—Big Celebration.

CHICAGO, Oct. 9.—Twenty-five years ago Friday the city of Chicago was laid waste by the greatest conflagration of modern times. Friday, in commemoration of that day of dreadful havoc and suffering, Chicago celebrated the rebuilding and progress of what is now the second city in America.

The anniversary was taken advantage of by local managers of the presidential campaign to make a demonstration in advocacy of the continuance of the present national financial system, both republicans and gold democrats joining forces under the direction of the Business Men's Sound Money association in organizing a parade, the equal of which has never been seen in this or probably in any other American city. As a counter demonstration, the combined free silver forces Friday night gave a torchlight parade, which was quite as notable as the day parade of the gold men.

Probably in the history of Chicago there has never been such a number of people congregated on its streets. The sidewalks along the entire route of the parade were a congested mass of humanity, which was with great difficulty kept from blocking the streets by the constant activity of an immense detail of police. The day was made a general holiday. The board of trade and nearly all business houses were closed, and to swell the crowds thousands of people came from the surrounding country, the railroads reporting the heaviest passenger traffic since Chicago day at the World's fair three years ago.

Not a street car was allowed to cross the river from the north or west sides, nor were any south side cars permitted to invade the district set apart for the parades. Every bridge was closed to vehicles and all traffic on down town streets was suspended.

Banners and flags swing at frequent intervals across the streets and from every tall building others float, while the front of almost every structure was a mass of red, white and blue. Many of the show windows also were elaborately decorated in honor of the occasion.

From thousands of paraders arose a mighty roar—cheers, yells, music of innumerable bands, the tooting of horns little and big, the penetrating howling of immense megaphones, and the thousand and one other noises that mark the passing of a great political parade.

At two or three points along the line of march immense, open-mouthed telephone receivers had been attached to wires leading directly to the homes of Wm. McKinley and Garrett A. Hobart, and to various eastern cities, into which were announced the names of each organization as the great column passed, and then a mighty shout went up that was intended to be, and no doubt was, heard thousands of miles away.

Observation stands were erected at frequent intervals, and not only were they filled to their utmost capacity, but every building had its throng of spectators filling its window spaces—some of the thrifty tenants even renting seats in desirable windows for half a dollar apiece. Many distinguished people from outside the city witnessed the great parade, among them being Hon. Mark Hanna, who reached the city Thursday, and who, in company with the members of the republican national campaign committee, reviewed the sights from the Union league, and Gens. Palmer and Buckner, the anti-silver candidates for the presidency, who watched the parade from a stand in front of the Palmer house. Hon. Chauncey M. Depew, of New York, and Secretary of Agriculture Morton, who delivered addresses Friday night, were also interested spectators; as also were (but from a different point of view) Senators Teller and Pettigrew and Congressmen Towne, Dubois and Lind, who addressed the free silver forces Friday afternoon and evening.

## Importation of Gold.

New and Interesting Happenings Within Our Borders.

## NOVEL TEST

To Be Made of the Law Regarding Sunday Observance.

BOWLING GREEN, O., Oct. 9.—A novel case has been commenced in the criminal courts of Wood county. The Pretzel Oil Co. has a very productive lease in Webster township, and consequently keeps the pumps running day and night. Several citizens residing in the neighborhood became possessed of Puritanic ideas and ordered the company to cease pumping the wells on Sunday. The company promptly refused and their pumps were twice arrested and fined for laboring on Sunday.

They next employed a strict Seventh Day Advent, who keeps Saturday religiously, to pump the wells on Sunday, and he, too, was arrested. The case will be appealed on the grounds that the pumpers observe one day according to law.

## Registration Day at Columbus.

## Further Returns From the Florida Election.

JACKSONVILLE, Fla., Oct. 9.—Complete returns from 34 counties give Bloxham (dem.) a majority over all of 13,423. The same counties in 1892, there being no republican ticket in the field, gave democratic majorities of 22,305. The remaining 11 counties gave democratic majorities aggregating 1,450 in 1892. The indications are that the democratic ticket is elected by a majority of 15,000, or a plurality over the republicans of 17,500. In 1892 the majority for Mitchell (dem.) over Baskin (pop.) was 23,393.
